

Nova Scotians Say...

IMPLEMENT KELOWNA ACCORDS NOW!

It's the **LEAST** we can do

Dear Minister Prentice,

The Kelowna Accords represent a historically-unique process of consultation and collaboration between the Government of Canada and Aboriginal leaders. The Accords make clear commitments for improving living conditions for Aboriginal people in Canada. This is only a first step toward redressing Canada's historically unjust relationship with First Nations and all Aboriginal people. The longer we wait to begin to reverse that trend, the more destruction is done to communities throughout the country. And while much investment is needed now, delaying it will only make it worse.

I call on you to implement the Kelowna Accords immediately, and to further the process of collaboration that they have begun.

Sincerely,
