

April 2012

# The DoubleTap

## S/C Report

Hi Folks.

Attached is the new schedule for IPSC Nova Scotia. Please note that this schedule is tentative based on MVRRC and LRGC's acceptance of the dates. Again, it's a busy schedule with lots of good stuff to pick from. Lots of training in the spring followed by lots of shooting through the summer. It sounds like quite a few of us are going to the Nationals this year, and I know many more are going to Summer Slam. Both matches promise to be good ones. Please make sure I'm aware if you're going – so I can work on teams or help with any squadding, travel info – etc. I've decided to make the provincials a level 3. Hopefully I can get my stuff together and get the stages designed and approved on time. If not, it will be the usual excellent Level 2 we know and love.

Over the winter, Wade MacKay got us a bunch more trick targets from the US, so in addition to the bobbars and appearing targets at AMA, expect to see clamshells, drop turners and stomp activators at the outdoor AMA matches. It ought to make for some great stages.

Our last indoor match is April 15<sup>th</sup> – yes, I know we'd all rather be outdoors, but did you see the snow on Easter Sunday? Hope to see you there.

## Notes to go with the IPSC NS Schedule – 2012.

**RO Course** – Anyone who has shot at least 3 IPSC matches in the last 8 months is welcome. We need at least 4 people to put this course on.

**Match Director Seminar** – this seminar most importantly needs participants that run matches at MVRRC and Lunenburg, but AMA members with at least year's IPSC Range Officer experience are welcome to attend. I will only be putting on this seminar if I get the attendance from Lunenburg and MVRRC that I need.

**Multi Gun** - the Multi Gun matches are not IPSC approved. They comprise a combination of Rifle, Shotgun and Pistol. They are open to anyone that has some sort of holster training from a gun club. Black Badges are most welcome; anyone else can check with the Match Director to confirm they can enter.

The **AMA Spring Multi gun match** will be maximum approx.. 60 rounds of rifle, 10 slugs, 50 shot and 60 rounds of pistol. Registration will be capped. Exact round count will be published the week before the event.

## Remaining 2012 IPSC Shooting Schedule for Nova Scotia

*REMEMBER: All IPSC NS matches have registration at 9:30 with 10:00 AM sharp for the first walk-through (unless otherwise noted)*

This schedule is tentative as of April 9, 2012 based on acceptance from Lunenburg and Musquodoboit clubs.
