For clarification:

- A competitor will only be awarded points for finishing position in the race for which the car is designed.

ie. an IT car that wins a GT race will not counts points for this club championship - that IT car must win it's own IT race.

- B.A.C. members will be awarded position based on other club members only.

ie. a competitor finishes third at a race at AMP, but the 1st and 2nd drivers in the race are not B.A.C. members. The competitor will count 1st place points for the purposes of this club championship.
